

LIFE-TIME has already been praised by AUDIENCES :

Best suited for ALL AGES. Everyone needs to know history...Black, White, etc.

Get this show in schools...it's really great and I love the Black history

I loved the show. It was elegantly produced, beautifully performed, and wisely written.

Thank you!

Wonderful play. I think it is a great way to explain what has happened in our history,
and now – to our children. Also so real!

Understanding the past reveals that many things currently have not changed.
Consequently, activism must continue to bring change

When I see and hear about, and read about what my people have had to overcome,
it inspires me to be better.

I appreciate learning about the pioneers in the government. Also showing the updates
of the history being made today.

It was awesome! Educational, moving, enlightening and empowering
